

The artful dodger: answering the wrong question the right way (mayo 2015)

Consignas:

1. What question does the paper try to answer?
2. What does Grice's (1989) theory of conversational implicature posit?
3. In one way do the contributions of this article differ from previous research on the topic?
4. What is the authors' initial hypothesis to explain listeners' failure to detect dodges?
5. What two key factors in dodge detection do the authors mention?
6. Describe the methodology used for study 1 (participants and procedure)
7. What was the hypothesis of study 3?
8. What practical intervention was explored in study 4? Why?
9. What were the results of the study?
10. Mention some limitations of the study and lines for future research
